

Focus on Success with DFM USER CONFERENCE 2016

Join us for an off-site, two day informational conference designed to help you get the most out of your DFM system. There will be several live demonstrations, recorded presentations, enhancement unveilings, user spotlights, CEU's, Q&A sessions and much more!

This conference will be of great benefit for anyone wishing to know more about the system and the tools it can provide in their day to day tasks. It is a very robust program and there are many features that some of our clients are not even aware they can utilize. This is going to be a jam packed, yet exciting 2 days of learning and interaction with the DFM staff and fellow users.

Breakfast is included with your room and DFM is providing lunch both days of the conference. There is also a shuttle to and from the airport. The Minneapolis conference is conveniently located across the street from the Mall of America, so there will be plenty of options for dinner! Please contact kfrary@dfmsoft.com if you have any questions!
